

## COULD THIS SOON BE THE WORLD'S MOST SOUGHT-AFTER DRIVER?

“After golfing for 40 years, my driving distance is now again like it was when I was young.”

“I am 80 years old and I still play golf twice a week. I am proud that my love for the game of golf has only grown over the years. After many years of golfing, I began to worry about my driving distance decreasing from time to time. Although I know it was probably caused by my age. Then recently one day, after testing the XCCEED driver, I was so surprised and excited to see the so much longer distance. I immediately bought the test driver. Now all of my golfing companions want the XCCEED driver and waiting patiently for theirs to arrive. I have recovered my long drive thanks to XCCEED, and am enjoying driving longer than my companions now although not for long as their drivers will soon arrive. The XCCEED has not only increased my driving distance, but also the feeling is so light, balanced and the ball flight is so straight with tremendous ease. In fact, I can swing easier than before and still achieve much more distance. Of course my scores have come down too! Over the years, I have been using many other high COR drivers but none perform like the XCCEED. The XCCEED driver has really made me a happy golfer again! I am so happy and grateful for it so I am writing this message as I would like to share this wonderful news with all fellow golfers like me.”

Thomas Young. 80 Years old, avid golfer and retired architect.
